SP Shooters Premier & Lady Shooters

Shooters Premier is the top group of players for each grade bracket or "A" team.

A player must try out to be on the Premier team in each age bracket. The Premier teams will not carry more than 10 players on their rosters. The Premier teams will play in more tournaments and practice more than the house teams and may travel to tournaments outside Cincinnati area.

The cost to play on the Premier team is higher than the House teams; this higher cost is due to the cost of the outside tournaments. This team may be required to participate in fund raisers to off set the cost of the team.

Be a part SP Shooters...

When you join the SP Shooters you are not just joining a team you are joining a family. Our teams support each other during games and practices. Our older more experienced players will help the new players in the drills to improve their skills to bring them up to the skill level of other players abilities. Most of our practice time is spent working on fundamental drills to improve all players skills. Tougher drills for our more advanced teams. The SP Shooters will practice 1 to 2 times a week, and they will play in the Sports Plus Spring League and may play in our house tournaments. Some teams may also play in other league and tournaments in the Cincinnati Area. What tournaments a team plays in is decided on by the individual coach for each team. A player does not have to try out for one of the house teams, they will be placed on the team that best fits their level of play pending available space.

Consult the AAU website for age and grade ruling for your child.
